

Toheeb Adedokun

A proactive, smart, goal-driven software engineer with 3years of development experience. I have developed software solutions for business use cases from conceptualization to deployment. I am a full-stack JavaScript engineer, eager to contribute to team success through efficient work, attention to detail, and excellent communication skills. Softwares I have built includes Job Finder App, E-commerce App, IT-Service Web App, and a lot of other projects. I currently work with the MERN Stack.
